EXHIBIT 8

FURTHER RESPONSES TO PART 26 OF FCC FORM 340

This proposal is categorically excluded from the environmental processing since it does not involve a site location specified under Section 1.1307(a)(1)-(8) of the Commission's Rules.

A calculation of electromagnetic radiation was performed for the proposed operation. For the proposal, the calculation employs 9.0 kilowatts, vertically and horizontally polarized, with a relative field value of 0.4 taken from Exhibit 9. The calculation for the proposed operation is taken from the FCC/OST Bulletin 65 ("Evaluating Compliance with FCC-Specified Guidelines for Human Exposure to Radiofrequency Radiation", October, 1985).

$$S = \frac{(1.64)(0.64)(F^2)(ERP_h + ERP_v)(1000)}{\pi R^2} = \frac{(1.64)(0.64)(0.4^2)(18000)(1000)}{\pi(2,300^2)}$$
$$= 0.182 \text{ mW/cm}^2 \quad (18.2\% \text{ of ANSI})$$

As shown from the above results, the electromagnetic radiation from this proposed operation will be below the standard set by the Human Exposure Guide (ANSI C95.1, 1982) near ground level. Warning signs will be posted and a fence will be built around the tower base to prevent access by the public to those places where electromagnetic radiation will exceed the standards.

The antenna input power will be reduced or shut off as necessary when authorized persons climb the tower to ensure that these persons are not subject to electromagnetic radiation that exceed the ANSI limit.

As a result of the above statements, therefore, grant of this application would be a minor action as defined by Section 1.1306 of the Commission's Rules.

FCC NOTICE TO INDIVIDUALS REQUIRED BY THE PRIVACY ACT AND THE PAPERWORK REDUCTION ACT

The solicitation of personal information requested in this application is authorized by the Communications Act of 1934, as amended. The Commission will use the information provided in this form to determine whether grant of this application is in the public interest. In reaching that determination, or for law enforcement purposes, it may be necessary to refer personal information contained in this form to another government agency. In addition, all information provided in this form will be available for public inspection. If information requested on the form is not provided, processing of the application may be delayed or the application may be returned without action pursuant to the Commission's rules. Your response is required to obtain the requested authority.

Public reporting burden for this collection of information is estimated to vary from 78 to 302 hours 20 minutes with an average of 171 hours 36 minutes per response. These estimates include the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, can be sent to the Federal Communications Commission, Information Resources Branch, Room 416, Paperwork Reduction Project, Washington, D.C. 20554, and to the Office of Management and Budget, Paperwork Reduction Project (3060-0034), Washington, D.C. 20503.
